SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

SIZE AND DISTRIBUTION OF FACULTY

The number of full-time faculty members reported is the head count of all faculty members who have appointments in departments responding and who are employed full-time. (Where the department includes disciplines other than political science, only those faculty who teach political science have been counted.)

Part-time faculty are those members of departments who are not employed on a full-time basis.

Graduate assistants — TA's and RA's — have not been counted.

OVERVIEW

In October 1987, the 1987-88 questionnaire was mailed to the 1,306 departments offering political science in four-year colleges and universities in the United States. There were 671 valid questionnaires returned, for an overall response rate of 51 percent. Ph.D. departments responded at a rate of 79 percent, masters departments at 88 percent; undergraduate political departments at 52 percent, and undergraduate social science and combined departments at 31 percent.

The data is summarized below for all departments (N=671) and then for each of seven subsets:

Ph.D. departments with 21 or more faculty	(N=52)
Ph.D. departments with 20 or less faculty	(N=43)
Masters departments with 11 or more faculty	(N=61)
Masters departments with 10 or less faculty	(N=86)
Undergraduate political science departments in public institutions	(N=75)
Undergraduate political science departments in private institutions	(N=172)
Undergraduate social science and combined departments	(N=172)
